To support the phenomenal growth of floorball in the United States, we have committed to importing newly manufactured floorball rinks. FloorballPlanet has contracted with the Uher Company to supply us with most affordable high quality floorball rink in the country.

Stock is limited and delivery is on a first-come, first-served basis – so **DON'T DELAY, RESERVE YOUR RINK TODAY!**

- Boards are produced by the Uher Company, who is the exclusive supplier of floorball rinks for the Czech National floorball team and a partner of the Finnish Floorball federation. Uher has produced over 1,800 rinks worldwide!
- Each IFF certified rink is 40m x 20m with 2.09m corner radius. There are 52 straight panels (1.99m x .5m) and 8 corner segments. Panels are manufactured of high strength polypropylene with sophisticated molecular welding technology. We have both black and white rinks available.
- An extra set of corners may be purchased so that you may assemble two smaller floorball rinks. This is a hugely popular feature where many facilities are not large enough to fit a full regulation rink. Wheeled trolleys (2 per rink) are available for easy movement and storage.
- Not exclusive to floorball. These versatile boards can be used as borders for a variety of sports!
- Have a unique situation? Purchase any combination of individual segments to fit your needs.
- Pricing (FOB Dallas-Fort Worth):

○ Regulation Floorball Rink (40 x 20m, White)	\$6,500
○ Additional 4 Corners (8 segments, White)	\$1,000
